## 1. Instalare setup pentru C++

The collage illustrates the steps to install Code::Blocks on a Windows 10 system:

- Top Screenshot:** The Code::Blocks website (codeblocks.org) is shown, highlighting the 'Downloads' section. It provides links for Windows, Linux, and Mac OS X, along with source code and older releases.
- Second Screenshot:** The Code::Blocks download page on SourceForge is displayed. It lists various download options for Windows 64-bit and 32-bit, including portable and non-admin versions. The 'Code::Blocks Windows 64 bit (including compiler)' is highlighted.
- Third Screenshot:** The 'Welcome to CodeBlocks Setup' dialog box is shown, indicating that the setup will guide the user through the installation process. It includes a 'Next >' button.
- Bottom Screenshot:** The 'License Agreement' dialog box is shown during installation. It displays the GNU General Public License (Version 3, 29 June 2007) and asks the user to accept the terms. The 'I Agree' button is highlighted.

Instalare setup pentru Python
